## Personal Information

Candidate id	1461
Name	Rid Mohamed Alturshani
Date of Birth	1981-06-28
Salary (in USD)	8800/
Industry	Engineering & Science
Sub Industry	
Nationality	Libya
Primary Language	English, Arabic,
Secondary Language	
Total Years of Experience	25

## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Electrical Project with 24 years of experience in the oil and gas industry, encompassing both onshore and offshore environments. Extensive background in FEED and EPC projects, with proven expertise in managing and coordinating multidisciplinary engineering activities to ensure safe, efficient, and timely project execution. Experienced as an Electrical Maintenance Engineer and Electrical Supervisor, adept in overseeing maintenance operations, troubleshooting complex systems, and ensuring peak operational efficiency. Skilled in client and contractor relationship management, project management, HSE compliance, and hands-on supervision. Recognized for significant contributions to project success, cost control, and excellence in electrical engineering across high-stakes projects. specializing in downstream refining, NGL processing, and petrochemical sectors. Proven expertise in managing and maintaining critical electrical systems, conducting lifecycle assessments, and ensuring compliance with industry standards such as NEC, IEC, NFPA, IEEE, NEMA, and API. Extensive experience in the specification, application, maintenance, and troubleshooting of high and medium voltage electrical equipment, ensuring optimal performance and reliability. Adept in electrical safety, arc flash hazard mitigation, hazardous area classification, power generation, and distribution systems. Skilled in failure analysis, troubleshooting, reliability improvement programs, and technical consultation for complex electrical issues. Possesses a strong background in electrical power system studies, and electrical software such as ETAP, EPALN .asset condition assessment, and implementing centralized service contracts for critical electrical equipment. Fluent in English, with exceptional communication and leadership skills, ensuring seamless coordination and collaboration across global teams.
