## Personal Information

<b>Candidate id</b>	1680
<b>Name</b>	OSAMA HUSSAIN
<b>Date of Birth</b>	1995-09-08
<b>Salary (in USD)</b>	640/
<b>Industry</b>	Drilling / Rig
<b>Sub Industry</b>	
<b>Nationality</b>	India
<b>Primary Language</b>	English, Hindi,
<b>Secondary Language</b>	
<b>Total Years of Experience</b>	3

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

I have actively contributed to drilling operations on over 30 wells, working alongside Assistant drillers and other team members to ensure the smooth and efficient execution of daily activities. A key aspect of my role involved assisting in the installation of Bottom Hole Assembly (BHA) components, where I achieved an impressive 98% accuracy, ensuring the integrity and functionality of the drilling setup. My attention to detail and focus on operational precision were crucial in minimizing downtime and optimizing the drilling process. In addition, I played a significant role in communicating critical issues or potential challenges to senior personnel, facilitating timely interventions and solutions. This proactive approach resulted in an average response time of less than 30 minutes, ensuring that issues were addressed swiftly, minimizing delays, and keeping the operations on track. Throughout 750+ work shifts, I successfully managed multiple tasks and priorities, ensuring that all operational objectives were met while maintaining safety standards and operational efficiency. I was also responsible for recording drilling parameters, maintaining operational logs, and assisting in the preparation of reports for the Assistant Driller (AD), ensuring accurate documentation for future reference. Lastly, I regularly monitored and maintained equipment and tools to ensure they were in optimal working condition. This preventative approach contributed to the overall safety and effectiveness of the drilling operations, helping to prevent costly breakdowns and downtime during critical phases of the drilling process.

BOSIET , H2S ,  
HDA , RIGPASS
