----------------------------	---------------------------------

Please find attached CV for your reference. I have review the job openings and interested to apply for the role of drilling specialist (well drilling engineering) which fits my experience and profile quite well. I have total of 19 years experience in drilling operation and engineering. Having held multiple roles in the past from offshore drilling supervisor, senior well engineer to well engineering technical assurer. I have been working as Senior Well engineer for the last 8+ years since 2016 to 2023 delivering end to end hydrocarbon maturation projects from feasibility to detailed design and execution. I have strong skillset in managing well operations as well as well engineering for SHELL. Currently I am working as Well Engineering Assurer and Advisor (TA2) for PETRONAS. I have notedly designed, plan and executed 8 x ERD wells, 4 x HPHT(15k BOP) wells and 3x deepwater exploration among others wells in my experience. If you wanted to know more about myself do feel free to contact me. It would be nice to have a discussion with you to understand the project you looking at and to share my experience with you.

Shell round 1 and 2
certified IWCF
combined level 4
Opito Bosiet
