Additional Information

Roles and Responsibilities	Additional Skills/Certification
With 26 years of experience as a Well Engineering Manager and subject matter expert, I have extensive hands-on experience in deep drilling, both offshore and onshore, and have successfully developed plans, managed costs, and supervised operations necessary for drilling oil wells. Throughout my career, I have demonstrated excellence in drilling processes, well design, testing, completion, and abandonment. My role involved administering drilling and service contracts, engineering design, planning wells, and supervising drilling crews on-site. I am eager to join a reputable and recognized company where I can contribute my expertise and further develop my skills. I am a family-oriented professional with a commitment to continuous professional development. I dedicate my spare time to communicating with family and colleagues, studying new subjects, and maintaining a healthy lifestyle through exercise	Drilling
