Additional Information

Roles and Responsibilities	Additional Skills/Certification
As a roustabout, I was used to handling general rig maintenance, moving supplies, and keeping the deck clean. But now that I've started training as a floorman, everything's faster and more technical. On my first day, the derrickhand and senior floorman showed me the drill floor. I helped handle drill pipes—using tongs and slips to connect and disconnect them during drilling. It was tough at first, but I focused on following their lead. I also assisted in mixing drilling mud, making sure the viscosity was right, and helped move heavy equipment with the crew. Safety was drilled into me—double-checking everything, wearing my PPE (hard hat, gloves, steel-toes), and staying alert. I'm still learning, but I'm getting better at anticipating what's needed next. The key is teamwork, staying sharp, and asking questions. Excited to keep improving!	rig course certificate
