Industry	Drilling / Rig
Sub Industry	
Nationality	Pakistan
Primary Language	English,
Secondary Language	Hindi,
Total Years of Experience	9

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

A floorman, also known as a roustabout in the oil and gas industry, is an entry-level position on an offshore drilling rig. Their primary duties involve general labor tasks to support drilling operations, such as maintaining equipment, handling materials, and assisting the drilling crew.

Responsibilities of a Floorman:

- Equipment Maintenance:** Assisting with the upkeep and repair of drilling equipment, including pumps, pipes, and other machinery.
- Material Handling:** Moving supplies, tools, and equipment on the rig, ensuring they are properly stored and organized.
- Assisting Drilling Crew:** Supporting the drillers and other specialized personnel with various tasks during drilling operations.
- Maintaining Cleanliness:** Keeping the rig floor and surrounding areas clean and safe.
- Following Safety Procedures:** Adhering to strict safety protocols and guidelines to ensure a safe working environment.
- Working as a Team:** Collaborating with other crew members to complete tasks efficiently and effectively.

Skills and Qualifications:

- Physical Stamina:** The job requires physical strength and endurance due to the demanding nature of the work.
- Willingness to Learn:** Floormen are expected to learn on the job and acquire new skills as they progress.
- Basic Mechanical Aptitude:** A basic understanding of mechanical principles can be helpful.
- Teamwork and Communication Skills:** Effective communication and the ability to work well with others are essential.
- Safety Awareness:** A strong understanding of safety procedures and the ability to follow them diligently.

Career Progression: From a floorman position, individuals can advance to more specialized roles within the drilling operations, such as:

- Assistant Driller:** Assisting the driller in operating the drilling equipment.
- Derrickman:** Responsible for the derrick, the tall structure on the rig that supports the drill string.
- Driller:** Operating the drilling machinery and overseeing the drilling process.

In summary, a floorman is a crucial entry-level position on an offshore drilling rig, requiring physical fitness, a willingness to learn, and a strong commitment to safety. It's a stepping stone to more advanced roles in the oil and gas industry.
