Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I am a Petroleum Engineer with a Master's degree in Strategic Management, passionate about resource optimization and efficient asset management in the oil industry. Throughout my career, I have demonstrated strong skills in leadership, proactivity, and assertive communication, which have enabled me to coordinate multidisciplinary teams and achieve demanding production goals. I stand out for my ability to solve problems effectively, prepare accurate technical reports, and foster a collaborative, results-oriented work environment. One of my most significant achievements has been the successful drilling of an oil well in the Orinoco Belt in a record time of 7.62 days, optimizing resources and meeting the highest standards of safety and environmental sustainability. My professional goal is to join an international company specialized in the oil sector, where I can apply my experience, learn from diverse work cultures, and contribute to the development of innovative projects. I aspire to find the ideal job in oil well operations, allowing me to achieve job stability, professional development, and personal growth, always committed to excellence and respect for the environment.

Leadership, proactive, assertive communication, asset management, problem-solving, report preparation, teamwork. Certification in: hazardous areas, confined spaces, and safe work permits.
