Industry	Drilling / Rig
Sub Industry	Rig Manager
Nationality	India
Primary Language	English, Hindi,
Secondary Language	English,
Total Years of Experience	6

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Roughnecks handle various drilling equipment, including making and breaking connections (e.g., with tongs and wrenches) as drill pipe is moved in and out of the wellbore. Maintenance and Repair: They perform routine maintenance and repairs on drilling equipment, ensuring its proper functioning and minimizing downtime. Safety Compliance: Roughnecks play a crucial role in maintaining a safe working environment by following safety procedures, wearing appropriate personal protective equipment (PPE), and participating in safety drills. Rig Cleaning and Housekeeping: Maintaining a clean and organized rig environment is vital, and roughnecks participate in cleaning and housekeeping activities. Material Handling: They assist in transporting materials and equipment to and from the rig, ensuring that everything needed for drilling operations is readily available. Assisting Other Crew Members: Roughnecks work closely with other crew members, including the driller, derrickhand, and roustabouts, providing support and assistance as needed. Following Instructions: They are responsible for following instructions from supervisors and adhering to established procedures. In essence, roughnecks are the backbone of the drilling crew, performing the physically demanding work that keeps the drilling operation running smoothly and safely. They are often the first point of contact with the equipment and play a crucial role in ensuring that the drilling process is efficient and productive.
