Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

<p>Worked as a slickline operator across United Arab Emirates and Qatar. I have over five years of hands-on experience in slickline operations within the offshore oil and gas industry, specializing in well intervention, completion, and maintenance activities. My work includes running various slickline tools for setting and retrieving plugs, flow control devices, and gauges, as well as fishing operations and well integrity checks. I am proficient in operating slickline units, pressure control equipment, and surface readout systems while maintaining a strong focus on safety and operational efficiency. Throughout my career, I have collaborated closely with engineers and supervisors to plan and execute jobs according to well programs, ensuring high-quality data acquisition and tool performance. I am skilled in tool string assembly, depth correlation, and pressure testing, with a strong understanding of downhole conditions and wireline maintenance practices. My experience also includes participating in pre-job safety meetings, risk assessments, and post-job reporting. Holding an IWCF certification, I consistently adhere to industry standards and company procedures to deliver reliable and safe operations. My goal is to further enhance my technical expertise and advance my career toward becoming a completion engineer while continuing to contribute to efficient and successful</p>	<p>Have all associated certificates</p>
