I want to express my interest in the Driller position for the 550HP Rig in Kuwait. With over eight years of hands-on experience in drilling operations under ONGC projects in India, I have developed the expertise and leadership skills necessary to ensure safe and efficient rig performance. My journey began as a Training Assistant Driller with John Energy Pvt Ltd on a 1000HP rig, where I gained comprehensive knowledge of rig operations and crew supervision. I was subsequently promoted to Assistant Driller, further honing my skills in handling high-pressure situations and ensuring adherence to safety protocols. Later, with BSCC Exploration Company and South Asia Consultant Company, I assumed the role of Driller, overseeing drilling activities on rigs up to 1000HP, including the Romania-100-II-540HP rig. In these roles, I prioritized crew safety, equipment maintenance, and operational efficiency while successfully managing drilling operations in challenging environments. My background in Electronics & Telecommunication Engineering, coupled with my problem-solving abilities and technical acumen, enables me to troubleshoot mechanical and electronic systems effectively. I take pride in fostering a safety-conscious culture, mentoring junior crew members, and ensuring compliance with international safety standards. I am eager to bring my dedication and expertise to your drilling operations in Kuwait. I would welcome the opportunity to discuss how my experience aligns with your organization's goals. Thank you for considering my application. I look forward to connecting soon.

My journey began as a Training Assistant Driller with John Energy Pvt Ltd on a 1000HP rig, where I gained comprehensive knowledge of rig operations and crew supervision.
