Dear , sir I am writing to express my strong interest in the Driller position within your esteemed organization. With over 18 years of comprehensive oilfield drilling experience—starting as a Roustabout in 2008 at Sino-Tharwa Drilling Company and progressing to my current role as Driller with Arabian Drilling Company (ADC) I bring proven expertise in onshore drilling operations, rig equipment management, and well control procedures. In my current role, I operate and supervise 2000 HP rigs up to 25,000 ft, ensuring compliance with WELL SHARP standards, HSE policies, and international best practices. I manage and train drilling crews, coordinate rig move activities, and oversee well control operations including blowout prevention, fishing, cement plugs, and completion activities. My background includes working with major operators such as Saudi Aramco, Khalda, Petrobil, Petro Amir, and Agiba, giving me strong adaptability to different projects and multinational teams. I hold multiple certifications—including Well Control (Driller Level), H2S Safety, IOSH Safety Management, Rigging & Lifting, and Firefighting & First Aid—which strengthen my ability to maintain safe and efficient operations. I am recognized for my leadership, problem-solving skills, and ability to work effectively across diverse cultures and challenging environments. I am confident that my technical expertise, safety-focused mindset, and proven field experience align with your company's standards and objectives. I am also fully open to relocation and eager to contribute to your team's success. Please find attached my CV and certificates for your review. I would welcome the opportunity to discuss how my background can support your operations. Thank you for considering my application. I look forward to your positive response. Sincerely, Tamer Mohamed Raslan
