Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

The Assistant Driller plays a critical role in supporting drilling operations and ensuring smooth and safe functioning of the rig. They assist the Driller in operating and maintaining all drilling equipment, including drill pipes, hoists, and mud systems. Their responsibilities include handling, moving, and positioning drill pipes and other tools safely to prevent accidents and maintain workflow efficiency. They monitor drilling fluids and mud levels, reporting any irregularities to the Driller to ensure the well-being of the equipment and prevent operational issues. Keeping the rig floor and surrounding areas clean and organized is also essential to maintain a safe work environment. Assistant Drillers follow strict safety procedures at all times, including wearing personal protective equipment, adhering to operational protocols, and responding promptly to any emergency situations. They support the drilling team in all daily tasks, including setup, breakdown, and routine maintenance of equipment. Additionally, they assist in inspections and minor repairs under the guidance of the Driller or senior technicians. Effective communication, teamwork, and awareness of the drilling process are key skills for this role. By performing these duties reliably, the Assistant Driller contributes directly to efficient, safe, and uninterrupted drilling operations.

IWCF Level 4 Certification (Well Control) Basic Safety Training (BST) and other essential safety courses
Knowledge of rig operations and drilling procedures
Strong teamwork, communication, and problem-solving skills
