Additional Information

Roles and Responsibilities	Additional Skills/Certification
I work for the National Drilling and Well Maintenance Company in Algeria. My role is to manage operations at the drilling rig as a driller's assistant, coordinating between workers to ensure safe and efficient working conditions. I prioritize the protection of equipment and the timely completion of tasks. I am responsible for finding solutions to obstacles encountered in this field and adapting to them, even in the most challenging situations. This depends on my experience in drilling and exploration, working collaboratively with the team to expedite operations, and incorporating the team's accumulated knowledge and skills gained through experience and exposure to various problems. This experience translates into sound judgment and the ability to overcome obstacles under the most difficult circumstances. We are ready to work and contribute to the company's growth and development, striving for leadership and a prominent position in the field under any conditions, with strength and confidence.	I hold a university degree in petroleum geology and a technical certificate in industrial safety and security.
