## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
A proven professional leader in onshore and offshore drilling rigs. I'm a supervisor composed by a safe and efficient mindset. Exploring new ways of accomplishing every step of the job from rig up, through all stages of drilling, completions and maintenance of the equipment during the whole campaign. I am always seeking ways to achieve an increase of performance with better proven results and improve the quality and quantity of safety, attitude, awareness and training each individual as best I can. Along with own attitude and behaviour. These are a few of my many aspects of detail and attention. I'm described as a energetic, personable, financially disciplined person making sure that extra spending costs are well justified. I find enjoyment with foot printing, tracking and documenting ways that show true potential to reduce unnecessary time and costs staying within or under budget whilst meeting or exceeding all requirements put forth by the company I represent, the client and of course the personnel of each person apart of my team from H.S.E, N.P.T, and K.P.I's.
