Secondary Language	
Total Years of Experience	22

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Below is a clear and practical list of Assistant Driller (Asst. Driller) roles and responsibilities, suitable for offshore or onshore rigs. --- Assistant Driller – Roles & Responsibilities

1. Support the Driller in Drilling Operations Assist in running, controlling, and monitoring all drilling equipment. Maintain the proper drilling parameters (WOB, RPM, SPM, pump pressure, mud weight). Communicate effectively with the Driller about well conditions.
2. Supervise Floor Crew Oversee Floorhands, Derrickman, and Roustabouts during drilling and tripping. Ensure safe and efficient pipe handling, BHA handling, and casing running. Verify crews understand tasks and follow procedures.
3. Monitor Well Conditions Watch for abnormal trends: gain/loss, pressure fluctuations, torque changes. Assist the Driller in implementing well-control procedures. Ensure BOP equipment is ready and properly tested.
4. Operate & Maintain Rig Equipment Help operate drawworks, top drive, mud pumps, shale shakers, and rotary systems. Report any equipment faults immediately. Ensure proper lubrication and routine maintenance is carried out.
5. Safety & Compliance Enforce safety rules and ensure all personnel use PPE correctly. Conduct toolbox talks, safety meetings, and participate in PTW (Permit to Work). Ensure all operations follow company policies, drilling program, and SOPs.
6. Assist in Well-Control Maintain choke manifold, kill lines, and BOP stack readiness. Monitor pit levels and mud properties during critical operations. Support during well-control simulations and drills.
7. Documentation & Reports Fill out daily drilling reports when required. Record pump strokes, trip sheets, BHA details, and deck logs. Ensure accurate handover notes at shift change.
8. Training & Development Mentor floorhands and new crew members. Continuously upgrade personal skills: well-control certification, equipment handling, safety knowledge.
9. Emergency Response Act as a key member of the emergency response team. Participate in fire drills, man-overboard drills, and evacuation procedures. Assist in isolating equipment in case of incident.

--- If you want, I can also create: ? A CV-ready job description ? A detailed job application letter ? A short version of responsibilities for interview preparation Just tell me what you need!
