Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

I am writing to express my keen interest in the Coiled Tubing Supervisor position at your esteemed organization. With over 11 years of experience in coiled tubing operations, well stimulation, pressure control, and downhole interventions, I am confident in my ability to contribute significantly to your team. Throughout my career at Halliburton – Egypt, I have successfully supervised and executed high-pressure, high-temperature (HPHT) well interventions in both onshore and offshore environments. My expertise spans: Managing coiled tubing units, fluid pumps, nitrogen systems, and well control equipment. Ensuring strict adherence to HSE and pressure control standards. Providing technical support and training to field crews, enhancing operational efficiency. Conducting risk assessments and job safety analysis (JSA) to uphold high safety standards. Leading critical projects, such as APACHE Plug & Perf Campaign, Thru-Tubing Gravel Pack (Abu-Qir Offshore), and Ultra Deepwater HPHT Wells (ENI ZOHR Gas Field - Saipem 10000). I hold a Bachelor of Law from Cairo University (2009) and certifications in IWCF Level 4, BOSIET, and H2S Breathing Apparatus, along with advanced Coiled Tubing Supervisor Training (Tier 3) from Halliburton. Additionally, my ability to analyze job performance, data acquisition, and well stimulation effectiveness has enabled me to optimize service quality and well integrity. My combination of technical expertise, leadership, and problem-solving skills makes me an ideal candidate for this role. I am eager to bring my dedication and expertise to your team and would welcome the opportunity to discuss how my skills align with your needs. Thank you for considering my application. I look forward to the possibility of contributing to your organizations success.

IWCF, BOSIET, H2S, DROPE OBJECTS AND LIFTING.
