? Inspection & Audit Duties Perform scheduled and ad-hoc audits of drilling rigs, support equipment, and associated facilities. ? Audit, advice and report contractor's compliance with and completion of the Commissioning Program. Inspection of the equipment Documentation and certification to confirm its compliance to contract requirement. ? Evaluate compliance with applicable standards such as IADC, API, OSHA, ISO 9001, ISO 45001, and company-specific QHSE systems. ? Verify that rig personnel are following safe working practices and procedures. ? Inspect critical equipment (e.g., BOPs, mud systems, derrick, rotary equipment, escape devices, DROPS management areas). ? Review permit-to-work systems, toolbox talks, and job safety analyses (JSA). ? Hazard Identification & Risk Assessment Identify unsafe conditions and practices during operations and recommend corrective actions. ? Participate in incident investigations and root cause analysis. ? Conduct risk assessments and monitor the implementation of control measures. ? Documentation & Reporting Prepare and submit detailed audit/inspection reports with findings, photos, ratings, and corrective action recommendations. ? Track non-conformities and ensure closeout of corrective/preventive actions. ? Maintain audit records and documentation in line with QHSE management systems. ? Training & Compliance Monitoring Evaluate workforce competency and safety awareness during site visits. ? Recommend training or refresher programs for rig personnel where gaps are identified. ? Ensure proper certification, calibration, and maintenance of safety and lifting equipment. ? Regulatory & Standards Compliance Stay updated on changes in local and international HSE regulations and standards. ? Ensure rigs comply with governmental, client, and corporate QHSE requirements. ? Continuous Improvement Contribute to the development and improvement of audit checklists and tools. ? Share best practices and lessons learned across different rigs and regions
