Experienced professional in Logistics and Materials Coordination, with strong background supporting offshore operations, including drilling campaigns and FPSO units. Proven expertise in end-to-end logistics planning and execution, ensuring material availability, traceability and compliance with operational and HSE requirements. Solid experience in logistics and materials planning, covering PR and PO administration, warehouse and inventory management, load and backload operations, and materials control throughout the supply chain. Strong involvement in MRP processes, including order and reorder management in coordination with Master Data teams, ensuring accuracy and reliability of material planning parameters. Hands-on experience with ERP systems such as SAP MM, Maximo, IFS and AMOS, supporting materials management, procurement processes, inventory accuracy and reporting. Responsible for documentation control and consolidation, including invoices, manifests, shipping documents and operational reports, ensuring compliance with internal procedures and regulatory requirements. Extensive experience in offshore logistics scheduling, definition of ports of call, prioritization of logistics demands, and management of urgencies in dynamic operational environments. Strong interface with operations, supply chain, procurement and HSE teams, contributing to safe, efficient and cost-effective logistics operations aligned with company policies and offshore best practices.
