## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

I have around 6 years' experience from specializing in Depot operation, HSE & Logistics proven track record in managing safe, efficient ,and complaint fuel storage handling and distribution processes in high demand environments. Experienced in coordinating daily Depot activities, Product Quality control, inventory management, HSE compliance and work force supervision. Passionate about operational excellence safety culture and continuous improvement. Commissioning of the depot Hi Tech Lubricant ltd Oil Depot Azakhel. Led the safe, timely, and efficient receipt, storage, and dispatch of fuel, optimizing gantry performance and ensuring uninterrupted tank lorry operations with zero delays. Conducted rigorous safety and quality inspections, compliance with organizational SOPs and regulatory standards while proactively identifying and mitigating operational risks. Effectively managed hospitality operations and financial reconciliation for six companies, enhancing service quality, improving coordination, and maintaining consistently accurate and timely records. Performed product quality control testing, including Research Octane Number (RON), distillation analysis, flash point testing, and ethanol content verification. Conducted fire safety drills, trained staff in emergency procedures, and maintained all firefighting and operational equipment in optimal condition and maintained the record. Ensured accurate daily product tanks and tank lorries by performing precise dip measurements, identifying variances, and producing comprehensive daily reconciliation reports. Oversaw daily physical reporting of tank lorries and performed routine verification of PR01 and PR02 documentation. Demonstrated solid understanding of depot maintenance procedures and operational requirements. Skilled in maintaining accurate inventory control through systematic monitoring, reconciliation, and reporting.
