## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

I am writing with great enthusiasm to apply for the Environment Engineer position at your esteemed company, as advertised on your LinkedIn. With a strong background in environmental engineering in oil & gas and specialized expertise in Greenhouse Gas (GHG) accounting and sustainability strategy, I am eager to contribute to your team and support company's Environment performance to beyond legal compliance further to the best key players benchmarking. In my previous role at BP and EGAS, I spearheaded the development of a comprehensive GHG baseline for Scope 1, &2 emissions as First Steps for Implementing Greenhouse Gas Emissions Management Agreement with Shell Egypt (attach1) this initiative not only enabled accurate carbon footprint & GHG inventory tracking but also informed a robust decarbonization strategy in line with SBTi (Science Based Targets initiative) guidance in addition to developing GRI sustainability reporting for EGAS and its affiliates. My work involved meticulous data collection, analysis, and the creation of detailed environmental reports for senior leadership and regulatory bodies. Moreover, I actively joined the Methane first Program for Emissions Reduction in Gas Supply Chains in Egypt in collaboration with European Bank for Reconstruction and Development "EBRD". For details kindly consider my resume
