Conducted comprehensive daily site inspections to identify potential hazards, unsafe acts, and unsafe conditions, ensuring full compliance with established Health, Safety, and Environment (HSE) standards and project requirements. Maintained accurate and up-to-date HSE documentation, including incident and near-miss logs, personal protective equipment (PPE) issuance records, attendance registers, safety permits, and detailed site safety reports. Enforced corrective and preventive actions by working closely with site supervisors and management to eliminate identified risks and support the effective implementation of safety controls and safe work procedures. Delivered safety induction training for all new site workers, subcontractors, and visitors to ensure awareness of site-specific hazards, safety rules, and emergency procedures. Actively participated in emergency response preparedness by coordinating drills, monitoring readiness of firefighting and first-aid equipment, and ensuring clear evacuation routes were maintained at all times. Facilitated regular toolbox talks and Job Hazard Analysis (JHA) sessions to reinforce safe work practices and promote proactive hazard identification among workers. Managed incident reporting and investigations by collecting factual evidence, conducting root cause analysis, and recommending practical corrective measures to prevent recurrence. Promoted a positive safety culture on site through continuous engagement, monitoring compliance, and encouraging workers to take responsibility for their personal safety and that of others.
