## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

An engineer who is looking to satisfy his ambition, by showing his true metal in work and find a position where I can make use of my skills, increase my qualifications, develop my technical, personal and management skills and improve my performance, Therefore leading a great and excellent professional Career path. Responsible for the electrical safety and integrity of the operations and to ensure the continual function of electrical equipment. Working with a talented team to develop consistent electrical solutions and training on maintenance best practices. I possess highly developed strengths in the maintenance field, built through years of hands-on experience, continuous learning, and a strong commitment to quality and reliability. My expertise covers electrical, mechanical, and preventive maintenance, ensuring that systems and equipment operate at peak performance with minimal downtime. I have a proven ability to diagnose complex faults quickly, implement effective solutions, and carry out scheduled maintenance to prevent future breakdowns. This high level of technical skill is supported by strong analytical thinking, safety awareness, and teamwork, allowing me to deliver consistent results under pressure. I am confident in reading technical drawings, using advanced diagnostic tools, and applying troubleshooting techniques across a wide range of industrial equipment. My strong communication skills enable me to coordinate effectively with engineers, supervisors, and operators, ensuring that maintenance tasks are completed efficiently and to the highest standards. I am always eager to learn new technologies and adapt to modern maintenance practices such as predictive and condition-based maintenance. Overall, my high strength in the maintenance field makes me a reliable, resourceful, and results-driven professional ready to contribute to any organization's success. Highly skilled and experienced in the maintenance field, with strong problem-solving abilities, technical expertise, and commitment to ensuring equipment operates efficiently and reliably.

Bosiet, OGUK,  
Safety training
