MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	5086
Name	Ranjith Annamalai
Date of Birth	1996-10-12
Salary (in USD)	2500/Per Month
Industry	Maintenance & Inspection
Sub Industry	NDT Technician
Nationality	India
Primary Language	English,
Secondary Language	
Total Years of Experience	9

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

<p>Installation & Commissioning Install, calibrate, and commission field instruments such as pressure, temperature, level, and flow transmitters. Install control valves, actuators, positioners, and accessories. Perform loop checking, functional testing, and commissioning activities as per drawings and specifications. Read and interpret P&ID, loop diagrams, hook-up drawings, and wiring diagrams. Maintenance & Troubleshooting Carry out preventive, corrective, and breakdown maintenance of instruments and control systems. Diagnose and rectify faults in PLC, DCS, and SCADA-related instruments. Troubleshoot issues related to signal errors, calibration drift, and field wiring problems. Maintain instruments to ensure process safety and plant reliability. Calibration & Testing Perform calibration using HART communicator, multimeter, pressure calibrator, temperature bath, and loop calibrator. Maintain calibration records and ensure compliance with ISO, QA/QC, and company standards. Test safety instruments such as PSV, switches, alarms, and interlocks. Control Systems Support Assist in PLC/DCS I/O checking, marshalling panel wiring, and system integration. Support shutdown, start-up, and turnaround activities. Coordinate with control room operators during testing and commissioning. Safety & Compliance Follow HSE rules, work permits, LOTO procedures, and site safety standards. Ensure all instruments comply with hazardous area classifications (Ex / ATEX). Report unsafe conditions and participate in safety meetings and toolbox talks. Documentation & Coordination Prepare and update as-built drawings, calibration reports, and maintenance logs. Coordinate with engineering, operations, and other maintenance teams. Supervise subcontractors and junior technicians when required.</p>	Plc and classic control Certificate
