

Falcon Multi Services Ltd
201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

| | |
|---------------------------|-----------------------|
| Candidate id | 5117 |
| Name | Mohammad Abdul Razzak |
| Date of Birth | 2000-03-03 |
| Salary (in USD) | 3000/Per Month |
| Industry | Oilfield Services |
| Sub Industry | Fishing |
| Nationality | India |
| Primary Language | English, |
| Secondary Language | Hindi, Arabic, |
| Total Years of Experience | 7 |

Additional Information

| | |
|----------------------------|---------------------------------|
| Roles and Responsibilities | Additional Skills/Certification |
|----------------------------|---------------------------------|

Maintenance, repairing, servicing, calibration, and trouble shooting of microprocessor, electronics based instrument such as temperature, pressure, flow, level transmitter, control valves (smart type), i/p converter, safety valve, and gas detectors. Micro motion mass flow meter ,Turbine flow meter, Vibration sensors and transmitters, proximity sensors etc. ? Carry out the corrective, preventive and predictive maintenance activities for various automation systems in the plants, workshops and offsite facilities in accordance with established schedules to achieve effective functionality, reliability and efficiency in accordance with standard operating procedures. ? During shutdown compressor and gas turbine overhauling Removed , Reinstalled and checked the all Vibrations probes, sensors and IGV. ? Assist with vendor for EAS Anti surge system checking. ? Maintain logbook on maintenance tasks carried out in order to facilitate timely information availability and ready referencing. ? Check all security systems and related alarms including trouble shooting and diagnoses of routine/ emergency breakdowns. ? To perform plant Turnaround and shutdown, Emergency. ? Assisting with operation team for start up, troubleshooting, loop checking interlock modification of all instruments. ? Checking spare parts in store and prepare spare parts list for routine & emergency activities. ? Conduct observations on unsafe/safe acts and report in a timely manner. ? Performs other similar duties such as observing safety rules and regulations, follow quality procedures as prescribed, maintain of good ? Awareness of HSE & quality standards. ? User side Knowledge in SAP and SMP(smart maintenance procedure),MERIDIUM. ? Worked in YOKOGAWA CS 3000,CENTUM XL DCS & PLC, Honeywell TDC3000 and Siemens pcs7 . ? Installation testing and commissioning of instrumentation items under automation system. ? Calibration of Pressure, Flow, Temperature. ? Calibration of displacer types level transmitter (Level Troll). ? Calibration of pressure and temperature gauges. ? Calibration of control valve & I/P converter. ? Calibration of switches, level switches, pressure switches, flow switches, temp, switches and limit switch. ? Testing of SOV and RTD and thermocouple elements, loop checking. ? Piping & instrument diagram and instrument loop diagram and hook up diagram. ? Complete responsibilities for bench and field calibration. ? Loop checking and commissioning of all instrumentation system. ? Testing of impulse line and Air line. ? I had been worked as an Instrument Technician for Installation, Loop checking, glanding, Planning for field modification, Installation, calibration, loop check, glanding and commissioning, Have good experience in control valves, Smart transmitters. ? Instruments Loop checking, Calibration, Maintenance and Repair. ? Control valves Installation,

Diploma in instrumentation.
Diploma in computer applicants

Education Summary

| Course | University | Passing Year | Country |
|---------|-----------------------------|--------------|---------|
| Diploma | Dynamir technical institute | 2018 | India |

Career Summary

| Position | Employer | Country | From | To |
|----------------|----------------------------------|---------|---------|---------|
| E&I technician | Aryan oil service Benghazi libya | Libya | 10/2025 | 12/2025 |
