| <p>Completed preventive and corrective maintenance on dual-fuel Solar Turbines and Heat Recovery Steam Generator (HRSG). ? Co-led the supervision of commissioning a dual-fuel solar turbine C40, 25-tonne HRSG, and associated plant instruments. ? Led troubleshooting and rectification of turbine and HRSG fault, achieving a 15% improvement in operational uptime. ? Managed turbine load transfer, startup, synchronization, and shutdown operation, ensuring seamless and efficient operation. ? Designed and executed a load shedding circuit that successfully managed turbine overload conditions and prevented outages. ? Modified HRSG water level monitoring switch design error by implementing an alternative network and cabling design. ? Managed the operation of DCS and SCADA systems, ensuring the 24/7 reliability, safety, and balance of plant operation. ? Executed load analysis and coordinated the network design that aided the successful integration of a new client's facility. ? Optimized plant performance by 15% through swift fault identification, resolution, and operational parameter adjustments. ? Executed maintenance on electric motors and motor starters (VFD, Star-Delta, Soft Starters), ensuring optimal performance. ? Reviewed contractors' work plan for technical compliance, ensuring seamless modification and integration of old/new units.</p> | <p>DPR Offshore Safety Permit, Basic Offshore Safety Induction and Emergency Training (T-BOSIET), Project Management Professional Certificate, Health Safety & Environment (HSE Level 1, 2, 3), Certificate in Environmental Impact Assessment.</p> |
