Sterling Oil Exploration & Energy Producing Company Mechanical Engineer – Captive Power Plant Projects (Jan 2025 – Present) Supervised steel structural erection for turbine halls, pipe racks, and auxiliary systems. Directed installation and alignment of gas turbines (Frame type/GE/Siemens) and steam turbines, ensuring precision within engineering tolerances. Led the erection of Heat Recovery Steam Generators (HRSGs) including pressure parts, ducts, drums, and auxiliary equipment. Coordinated mechanical works for captive power plant systems including piping, pumps, compressors, and cooling towers. Oversaw routine and major maintenance activities on turbines, HRSGs, and rotating equipment to ensure reliability and efficiency. Worked closely with EPC contractors, OEM representatives, and QA/QC teams to meet project specifications and timelines. Ensured compliance with HSE policies, conducting toolbox talks, risk assessments, and site inspections to eliminate hazards. BUA GROUP (LASUCO) LAFIAGI KWARA STATE Jan 2023 to Dec 2024 Assistant Mechanical Manager (Boiler Engineer): Interpretation of mechanical designs and drawings. Supervises erection and installation of boilers and Steam/Gas Turbine, heat exchangers, Chillers, and Pollution control equipment. Ensuring proper project planning. Supervision and guidance on the steel erection structural work. Supervises maintenance and installation of machineries and equipment. Supervises welding and fabrication work on site. AFRICAN NATURAL RESOURCES AND MINE LIMITED GUJENI KADUNA STATE Feb 2022 to Jan 2023 Shift Engineer operation and maintenance Turbine/Boiler/WTP: Supervises steel structural erection work of power plant. Supervises erection and installation of Waste Heat Recovery Boiler((WHRB) and Condensing Extraction Turbine and related equipment. Prepared and supervised commissioning of boilers, Turbines, Chillers Condensers etc. Responsible starting, operating and shutting down of Steam/Gas Turbine (STG) System, boiler and Demineralization plant in a logical efficient and safe manner on DCS. Operate engine control system, electrical generators, and electric plant control equipment from DCS or local operating stations or switch boards. Adjust Turbine Steam controls on DCS to generate specified electrical power. Performed maintenance on steam Turbine and check procedures on power supply. Filling Operation data on log book for reference purpose. Inspected, identified and replaced faulty component of the Gas Turbine engine. Good understanding of Turbine auxiliary equipment like lube oil system, starter system, and filter valves etc. DCS Engineer Boiler (WHRB) and Turbine (condensing extraction type and back pressure impulse Turbine type). Performed preventive maintenance on control and monitoring circuits. Coordinating and supervising the entire activities of power plant. GOLDEN SUGAR COMPANY SUNTI (A Subsidiary of Flour Mills of Nig. Plc) Jan. 2016 - Jan 2022 Steam and Power
