201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

## Personal Information

Candidate id	5211
Name	Ghulam Murtaza
Date of Birth	1986-07-17
Salary (in USD)	5000/Per Month
Industry	Maintenance & Inspection
Sub Industry	NDT Technician
Nationality	Pakistan
Primary Language	English,
Secondary Language	Hindi,
Total Years of Experience	15

## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

?Prepared cost estimates and arranged materials and manpower for mechanical maintenance activities. ?Conducted toolbox talks (TBT) and safety briefings before and during job execution in line with HSE requirements. ?Executed mechanical maintenance activities independently and provided hands-on training to junior technicians. ?Performed maintenance of distillation columns, pressure vessels, heat exchangers, and piping systems in operational and congested plant areas. ?Carried out piping fabrication and erection in accordance with approved isometric and layout drawings. ?Led mechanical team activities for the Gas Turbine installation project, including fabrication and installation of piping racks and high-pressure/small-bore piping, ensuring compliance with safety and quality standards. ?Executed fabrication and internal relining of process vessels using Carbon Steel and Stainless Steel (SS 316L), including weld inspection and hydraulic pressure testing using demin water. ?Fabricated and installed firewater pipelines, including welding, alignment, and hydraulic pressure testing as per approved procedures. ?Performed stainless steel cutting using water-cooled plasma cutting machines (up to 60 mm thickness). ?Conducted carbon steel plate cutting using oxy-acetylene gas cutting systems (up to 125 mm thickness). ?Performed maintenance, overhauling, and testing of low- and high-pressure valves, including hydraulic pressure and pneumatic testing of gate, globe, check, butterfly, ball, and plug valves.. ?Maintained and repaired mechanical, thermodynamic, and thermostatic steam traps to ensure reliable operation. ?Repaired all types of GLGs and rectified leaks to ensure accurate level indication. Authorized GLG maintenance technician ensuring reliability and safety compliance. ?Replaced catalyst tubes and carried out hot spot and refractory repairs on reformer/transfer lines. Completed secondary reformer checker work repairs per approved specifications. ?Maintained and repaired boilers and associated components. Supervised boiler tube replacement and burner repair work per approved procedures. Maintained and repaired Urea Reactors, including inspections, lining repairs, welding, and leak testing. Ensured safe and reliable reactor performance in high-pressure environments
