Industry	Maintenance & Inspection
Sub Industry	NDT Technician
Nationality	India
Primary Language	English,
Secondary Language	Hindi,
Total Years of Experience	10

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

As a Maintenance Instrument Technician, I am responsible for the installation, calibration, inspection, maintenance, and troubleshooting of instrumentation and control systems to ensure accurate and reliable plant operations. My duties include maintaining field instruments such as pressure, temperature, flow, and level transmitters, control valves, analyzers, and gauges in accordance with standard procedures. I perform preventive and corrective maintenance on instrumentation systems to minimize downtime and ensure process safety. I diagnose faults in control loops, PLC/DCS systems, and associated wiring, and take appropriate corrective actions. Calibration of instruments using standard calibration tools and documentation of calibration records are key responsibilities of my role. I strictly follow safety rules, permit systems, and standard operating procedures while working in hazardous and controlled areas. I coordinate with operations, electrical, and mechanical teams to plan maintenance activities and support smooth plant operations. Maintaining maintenance logs, reports, and spare parts inventory is also part of my responsibility.

H2H DIPLOMA IN INSTRUMENTATION

Education Summary

Course	University	Passing Year	Country
Diploma in instrumentation	Kolkata University	2014	India

Career Summary

Position	Employer	Country	From	To
Instrument technician maintenance	Dassun	Iraq	11/2023	07/2025
