

FALCON®
MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	5218
Name	Ehab Obeid Balla
Date of Birth	1972-05-05
Salary (in USD)	5000/Per Month
Industry	Oilfield Services
Sub Industry	Fishing
Nationality	Sudan
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	20

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Mechanical maintenance expert with a demonstrated history of working in all aspects of mechanical maintenance activities, especially in oil & gas industry. Skilled and trained professionally in onshore drilling operation support, specifically in all directional drilling tools, and further on I equipped by many advanced drilling system courses in UAE in 2007. Strong engineering professional with three years university Diploma degree in mechanical engineering from Nile Valley University in Sudan - faculty of Engineering & Technology, production option. Mechanical Expert in Maintenance, Repair, and oilfield Drilling Systems. As a Mechanical Expert graduate with over 20 years of experience, I have cultivated a career rooted in technical excellence, innovation, and leadership across manufacturing and oilfield industries. My journey began in production factories (2000–2005), where I rapidly advanced to manage engineering departments by leveraging my mechanical engineering expertise, strong analytical skills, and a hands-on approach to solving complex challenges. During this time, I specialized in failure diagnosis and repair of industrial machinery, including hydraulic systems, all types of water pumps, while implementing preventive maintenance strategies and leading high-performing teams. In 2006, I transitioned to the oilfield industry, bringing my mechanical acumen to wireline operations and well-site logging as operator job. My passion for engineering solutions led me to specialize in Rotary Steerable Systems (RSS), pivotal in directional drilling. Over the years, I have achieved Competency Level 3 in advanced directional tools, including Drilling Mud Motors, PowerDrive, and Xceed. Comprehensive Maintenance & Repair, skilled in assembly, disassembly, root cause failure analysis, and maintenance planning for complex systems. Mechanical Engineering Leadership, proven ability to optimize machinery performance, manage spare parts, and oversee maintenance system updates. Specialization in Drilling Systems, renowned expertise in Drilling Mud Motors and RSS. Team Management, adept at leading multidisciplinary teams, making timely decisions, and delivering results in high-pressure scenarios. By combining my mechanical engineering foundation with practical experience, I've established myself as a leader in innovation and operational excellence. problem-solving, process optimization, and continuous improvement in the industries I serve. Let's connect to explore opportunities to collaborate and achieve impactful results
