

**FALCON®**  
MULTI SERVICES LTD

**Falcon Multi Services Ltd**

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

## Personal Information

Candidate id	5220
Name	Dickson Akpabio Akpan
Date of Birth	1979-04-04
Salary (in USD)	5600/Per Month
Industry	Oilfield Services
Sub Industry	Fishing
Nationality	Nigeria
Primary Language	English,
Secondary Language	English,
Total Years of Experience	15

## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Senior Instrumentation Technician Diagnosed and troubleshoot faults in instrumentation and control systems such as SCADA, PLC, DCS (Yokogawa Centum VP DCS and SIS, Emerson DeltaV DCS, and SIS, Siemens S7 TIA PORTAL PLC/SCADA 1200 & 1500, and Allen Bradley RS Logix 5000 PLC. ? Oversaw calibration and testing of measurement devices, enhancing accuracy and reliability. ? Developed preventative maintenance schedules (using IFS, UNISEA) CMMS Software to minimize downtime by 35% and improve equipment lifecycle by 45%. ? Assisted in commissioning and integration of new instrumentation and control systems in the production process. ? Implemented safety protocols during instrumentation work, ensuring compliance with industry standards. ? Maintained up-to-date knowledge on emerging technology trends in the field of industrial automation to provide informed recommendations for upgrades or improvements. ? Ensured accurate loop checking and function testing of instrumentation systems such as ESD, ESDV, PSD, F & G, FT, LT, PT, AT, Vibration Sensors, Analyzers. ? Provided technical support during emergency situations involving instrument malfunctions or breakdowns, minimizing disruption to operations and ensuring timely resolution of issues. ? Improved plant safety by ensuring compliance with industry standards and regulations for instrumentation systems. ? Collaborated with electrical and mechanical teams for coordinated maintenance tasks. ? Promoted workplace safety through strict adherence to company policies, regulatory requirements, and industry best practices related to instrumentation systems. ? Conducted thorough inspections of installed instruments periodically for optimal performance assurance. ? Collaborated with interdisciplinary teams to design, develop, and implement complex industrial automation projects. ? Implemented a proactive maintenance strategy by conducting regular audits, identifying potential issues, and addressing them before they escalated into major problems. ? Ensured accuracy in measurements by maintaining proper calibration of instruments according to established schedules and guidelines. ? Performed repair procedures on damaged instruments and sourced replacements from approved vendors. ? Performed scheduled and planned installation and maintenance duties. ? Prepared reports and technical documentation of day-to-day production processes. ? Installed, maintained, calibrated, and repaired field instruments such as pressure transmitters, level sensors, flow meters, pH/DO/Particle analyzers, temperature sensors, and gas detectors. ? Liaised with engineering staff on special projects to assist with configuration, installation and interoperation of system equipment.

Field instrumentation ?  
Electrical troubleshooting ?  
Hazardous area classification ?  
Flow measurement ?  
SCADA development ?  
Instrumentation design ?  
DCS configuration ?  
Vibration monitoring

## Education Summary

Course	University	Passing Year	Country
Instrumentation and Control Engineering	Peetroleum Training Institute	2012	Nigeria

## Career Summary

Position	Employer	Country	From	To
Senior Instrumentation Technician	WTS Energy & Yinson Production AS.	Nigeria	02/2020	12/2025
