Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

- Led I&C unit in preventive, predictive, and corrective maintenance of FSO process control and safety equipment, ensuring continuous production and system reliability.
- Ensured full SHE&Q compliance through hazard identification, toolbox talks, and strict adherence to PTW protocols.
- Participated in FAT/SAT and vendor activities during commissioning, ensuring safety compliance quality delivery and complete as built documentation.
- Carried out fault diagnosis and troubleshooting using P&IDs, loop diagrams, vendor manuals, and technical documentation.
- Enhanced control performance by tuning loops and adjusting alarm thresholds based on plant conditions.
- Accurately updated maintenance logs, work orders, and equipment history in SAP for tracking and planning.
- Mentored junior technicians, delivering toolbox talks and hands-on I&C training.
- Verified all job prerequisites (BPO, TBT, LMRA) prior to task execution to uphold safety and procedural standards.
- Supported ICSS upgrades and migrations, integrating new devices with minimal plant disruption.
- Actively participated in Emergency Response Team duties, supporting safe management of onsite incidents and drills.
