201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	5240
Name	Mohammad Nazmul Iqubal
Date of Birth	1981-08-25
Salary (in USD)	3000/Per Month
Industry	Oilfield Services
Sub Industry	Fishing
Nationality	India
Primary Language	English,
Secondary Language	Hindi,
Total Years of Experience	15

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Spearheaded commissioning and maintenance activities for critical instrumentation systems with BAPCO GAS plant, strictly adhering to SHE policies, regulations, standards and practices. Conduct comprehensive hazard and risk assessments, implementing effective control measures to minimize potential incidents and prevent operational disruption. Prepare and performed preventive maintenance for signal/control instruments (LT, PT, FT, TT, Control Valves, Switches and Gas Detectors and Analyzers to reduce breakdown and enhance equipment reliability. Executed corrective maintenance strategies, enhancing instrument reliability and conducting routine preventive maintenance on running plant. Performed installation, calibration, and serviced various transmitters, control valves, on/off valves, positioners, PSVs, SOVs, IGVs, blow-off valve, regulators, I/P convertors, limit switeches, RTD, and T/C. Orchestrated Pre-commissioning and commissioning activities, including meticulous loop checks and function test of control systems and field instruments. Performed major shutdown maintenance and overhaul projects, dismantling, reassembling, simulating, Calibration and repair/ replace defective components for control instruments/systems. Prepare and aquire necessary tools and spare prts for instruments maintenance tasks. Maintain tools and equipment in optimum condition and ensures the calibration validity of all equipment is retained and is available during any maintenance process, in compliance with all SHE & Company policies, procedures and standards. Conducted linearity check, Calibration and Fixing of Redial, Axial, Velocity & Speed probes and Proximeter, documenting all results accurately. Interpreted P&ID, ILD, Hook-up drawing, and electrical schematics to facilitate effective maintenance and installation precedures. Collaborated with field operation during machine startup and coordinated with mechanical/Electrical teams for instrument-related maintenance activities. Ensured strict adherence to all company HSE policies and procedures, and actively perticipating in fire and safety department initiatives during emergency situation.

Process Control,
Instrument Calibration,
Troubleshooting, Repair,
Preventive Maintenance,
Corrective Maintenance,
Loop cheking/Function test
of Instrumentation/Control
systems.

Education Summary

Course	University	Passing Year	Country
Diploma in Instrumentation	Al Kabir Polytechnic	1998	India

Career Summary

Position	Employer	Country	From	To
Instrument Technician	Bapco Gas group of Bapco Energies (Direct)	Bahrain	10/2017	10/2024
