Total Years of Experience	6

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	----------------------------------------

I have solid field experience with Baker Hughes and SLB Advanced Logging Services, delivering wireline operations in both onshore and offshore environments. I am competent in a broad range of logging services, including Neutron, Gamma Ray, Sonic, Ultrasonic, Imager, Formation Tester, and Cement Evaluation. My responsibilities have included tool preparation, job execution, real-time data monitoring, and post-job log quality checks to ensure accurate and reliable data delivery. I have regularly acted as the focal point for clients at the wellsite, coordinating with drilling, subsurface, and operations teams to ensure smooth execution and alignment with logging objectives. I am confident in managing client communication, addressing operational challenges, and maintaining high service quality under time-sensitive and demanding conditions. With strong technical knowledge, a safety-focused mindset, and adaptability to different well conditions, I consistently contribute to efficient and successful operations. I am motivated, detail-oriented, and committed to maintaining the highest professional standards. I would welcome the opportunity to further discuss how my experience can support your wireline operations.
