Personal Information

Candidate id	5302
Name	Mohamed Salah Kadous
Date of Birth	1987-10-22
Salary (in USD)	500/Per Day
Industry	Drilling / Rig
Sub Industry	Rig Electrician
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	16

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Accomplished Drilling Supervisor with over 16 years of proven expertise in managing complex drilling and work over operations for gas and oil wells across onshore and offshore environments in Saudi Arabia and Egypt. Specialized in unconventional deep gas drilling, advanced well control techniques, and drilling optimization while maintaining rigorous HSE compliance. Demonstrated success in reducing non-productive time and enhancing operational efficiency through strategic planning and innovative methodologies.

- Supervised drilling of unconventional horizontal/ERD gas wells with long lateral hole sections up to 15,000 ft, enhancing efficiency through innovative practices.
- Operated and managed large-scale 2000-3000 HP land rigs with advanced 10-15k BOP stacks, tackling complex drilling challenges in multi-slot pads with anti-collision control.
- Utilized optimum WBM & OBM systems, drilling and tripping practices to enhance hole cleaning and stability under demanding conditions.
- Managed critical operations including severe and complete loss, Blind drilling using Mud cap technique, differential sticking, pack off and well-bore geometry challenges, optimizing shocks & vibration, mitigation of drill string twist off and DP wash out.
- Executed critical fishing operations and open hole side-tracks to sustain drilling progress under demanding conditions.
- Created detailed Work Instructions based on the well program and ongoing activities.
- Reviewed and recommended optimization of drilling programs and procedures.
- Managed safely rig move operations using skidding over multi-slots pads and conventional methods following safety standards.
- Ensured that Aramco Well Control Standards are met in all respects including equipment configuration, testing and crew response.
- Collaborated with contractors to ensure availability of necessary equipment at well sites, championing continuous improvement efforts.
- Successfully Ran & cemented 5.5" mono-bore long string completions including flotation device (URFC) and Frac port valves through short radius curve section & long lateral sections.
- Managed all operations in a manner that ensured the well programs carried out in a safe and cost-effective manner.
- Responsible for the onsite implementation of all Aramco safety policies and programs and assisted in HSE field audits, investigations or initiatives.
- Worked in collaboration with drilling contractors and all service companies to ensure all required equipment and tools are available at the wellsite.
- Champion performance and continuous improvement efforts to ensure the delivery of well program objectives. Made sure that all Pre-Tour Safety Meetings are properly conducted and documented.

Proactive Safety
Compliance HSE & Operations Leadership
Trouble shoot operational challenges
Communication
Manage & Monitor well cost Positive, can-do attitude Time
Management Decision Making Problem Solving

Education Summary

Course	University	Passing Year	Country
Bachelor of Petroleum Engineering	Suez University – College of Petroleum Engineering	2009	Egypt

Career Summary

Position	Employer	Country	From	To
Field Drilling Engineer	Hellenic Petroleum S.A Company	Egypt	09/2009	07/2010
Drilling & Work over Supervisor	Suez Oil Company – DEA	Egypt	08/2010	04/2022
Drilling & Completion Supervisor	Saudi Aramco	Saudi Arabia	05/2022	12/2025
