201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

## Personal Information

<b>Candidate id</b>	5318
<b>Name</b>	Chukwunalu Isamah
<b>Date of Birth</b>	1995-05-20
<b>Salary (in USD)</b>	5000/Per Month
<b>Industry</b>	Oilfield Services
<b>Sub Industry</b>	CAD / CAM
<b>Nationality</b>	Nigeria
<b>Primary Language</b>	English,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	5

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

These \*Solids Control Engineer: As a Solids Control Engineer, my primary responsibility were to design, operate, and maintain equipment and systems that control and manage drilling solids in drilling operations. My key roles include: - Designing and implementing effective solids control systems to optimize drilling performance and minimize waste - Operating and maintaining equipment such as shale shakers, centrifuges, and mud cleaners to ensure efficient solids removal - Monitoring and analyzing drilling fluid properties and solids content to optimize treatment and minimize costs - Troubleshooting equipment issues and implementing repairs or modifications as needed - Collaborating with drilling teams to optimize drilling performance and minimize environmental impact \*Maintenance Engineer: As a Maintenance Engineer, my primary responsibility were to ensure the reliability and efficiency of equipment and systems in drilling operations. My key roles include: - Developing and implementing maintenance schedules and procedures to prevent equipment failures - Conducting routine inspections and maintenance activities on equipment such as pumps, motors, and gearboxes - Troubleshooting and repairing equipment issues to minimize downtime and optimize production - Collaborating with operations teams to identify and prioritize maintenance needs - Implementing reliability-centered maintenance practices to improve equipment reliability and reduce maintenance costs \*Field Operator: As a Field Operator, my primary responsibility were to support drilling operations and ensure the safe and efficient operation of equipment and systems. My key roles include: - Operating and monitoring drilling equipment and systems, such as mud pumps, generators, and rig systems - Performing routine inspections and checks on equipment and systems to identify potential issues - Assisting with maintenance activities, such as equipment repairs and replacements - Collaborating with other teams, such as drilling and maintenance, to ensure smooth operations - Following safety procedures and protocols to ensure a safe working environment for yourself and others.

Advanced gas handling and processing Nimeche. Skills Troubleshooting and inspection Maintenance Ms word etc

## Education Summary

Course	University	Passing Year	Country
Mechanical engineering	Petroleum training institute	2021	Nigeria

## Career Summary

Position	Employer	Country	From	To
Field engineer [operator	ALLMAN GLOBAL service limited	Nigeria	06/2023	06/2025
Mechanical maintenance engineer	Sterling oil and gas	Nigeria	03/2025	12/2025
