Dears, Please find the attached CV file as HSE supervisor Iam writing to express my strong interest in the HSE supervisor position at AGIBA Petroleum. As a Mechanical Engineer currently working in HSE at AGIBA Petroleum, I possess a unique blend of deep technical knowledge and practical safety experience. My background allows me to not only identify potential hazards but also understand the engineering principles behind the equipment and processes, enabling me to develop more effective and sustainable safety solutions. I am confident I can bring immediate value to your team. Thanks. Conducted regular site inspections to identify potential hazards and ensure adherence to established safety protocols. ? Reduced incident rates through consistent monitoring of HSE performance indicators and proactive interventions. ? Conducted root cause analysis of technical issues, implementing preventive measures for future occurrences. ? Performed annual inspections on fire and security alarm systems. ? Developed comprehensive PTW systems that improved safety standards and reduced workplace incidents. ? Improved fire alarm system reliability by conducting thorough inspections and identifying potential issues. ? Performed regular maintenance on installed systems. ? Performed troubleshooting on fire alarm systems, completing on-site repairs or transporting malfunctioning equipment to off-site lab for repair. ? Conducted regular audits of PTW documentation, ensuring compliance with company policies and industry best practices. ? Reviewed documents, files, transcripts, and other records to assess compliance and potential risk. ? Supported organizational growth by participating in project planning activities from an HSE perspective. ? Strong knowledge of local and international HSE standards and regulations.
