-----------------------------------	--

Kasri mazigh Drilling Supervisor. Drilling Supervisor with over 13 years of progressive experience in drilling operations, seeking a new professional opportunity to contribute technical expertise, leadership, and operational excellence to a dynamic drilling organization. Demonstrated ability to supervise complex drilling activities while ensuring the highest standards of safety, efficiency, and cost control. Experienced in managing day-to-day rig operations, coordinating drilling crews, contractors, and service companies to ensure execution in line with approved drilling programs and company procedures. Strong background in well construction activities including spudding, drilling, tripping, casing, cementing, logging, and well control operations. Known for maintaining strict compliance with HSE policies, conducting toolbox talks, risk assessments, and enforcing safe work practices at all times. Capable of identifying operational risks, troubleshooting technical challenges, and implementing practical solutions to minimize non-productive time and optimize drilling performance. Skilled in monitoring drilling parameters, equipment performance, and well integrity to ensure safe and efficient operations. Produces accurate daily drilling reports and communicates effectively with drilling engineers, management, and support teams. Recognized for strong leadership, decision-making, and mentoring abilities, with a proven record of building disciplined, safety-focused teams. Highly motivated to take on a new Drilling Supervisor opportunity where experience, commitment, and professionalism can add immediate value to drilling operations and long-term project success.
