## Personal Information

Candidate id	5367
Name	?Mohamed Elghorieb??
Date of Birth	1994-04-20
Salary (in USD)	400/Per Day
Industry	Drilling / Rig
Sub Industry	
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	10

## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Well Site Leader with over 10 years of progressive experience in supervising drilling and workover operations for oil and gas wells, including operations in high-risk H<sub>2</sub>S environments. Demonstrated capability in managing complex well operations while ensuring full compliance with safety standards, company policies, and international oilfield best practices. Possess strong hands-on experience in directional and horizontal drilling, with a proven track record in successfully running in hole (RIH) with various liner sizes, including both conventional liner systems and advanced VersaFlex liners. Extensive exposure to operating 2000 HP drilling rigs, covering both onshore and offshore operations, and managing challenging HPHT wells, where mud cooling systems were effectively utilized to maintain safe downhole conditions and protect drilling equipment. Highly proficient in using Landmark drilling software for well planning, trajectory design, and operational optimization. Adept at planning, coordinating, and supervising all rig site activities, including drilling, tripping, casing, cementing, testing, and completion-related operations. Responsible for preparing and maintaining detailed time look-ahead schedules, optimizing rig performance, minimizing non-productive time (NPT), and ensuring smooth coordination between all service companies. Additionally, served as an Office-Based Drilling Engineer for two years, gaining solid experience in drilling program preparation, well design, AFE development, contract evaluation, and tendering processes. This dual exposure to both field and office roles has strengthened the ability to align operational execution with engineering design and cost control objectives. Highly motivated, adaptable, and ready to mobilize at any time for a full-time Well Site Leader position, with a strong commitment to safety, operational excellence, and delivering wells efficiently and within budget.
