<b>Name</b>	M.Febriandi Syahtiano
<b>Date of Birth</b>	2002-02-10
<b>Salary (in USD)</b>	1500/Per Month
<b>Industry</b>	HSE
<b>Sub Industry</b>	Other
<b>Nationality</b>	Indonesia
<b>Primary Language</b>	English,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	1

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

As an HSE Analyst Intern at PT Pertamina Hulu Rokan, I was actively involved in supporting Health, Safety, and Environment (HSE) management across exploration, drilling, and partnership projects within upstream oil and gas operations. My role focused on ensuring compliance with company HSE standards, government regulations, and industry best practices through both administrative control and field-based activities. I processed, verified, and maintained contractor safety compliance data through the Contractor Compliance Performance Management (CCPM) system, contributing to accurate daily and periodic safety reporting. I managed and analyzed project safety data using Microsoft Power BI and Excel to support monitoring of safety performance, trend analysis, and management decision-making. I was responsible for reviewing Permit to Work (PTW) documents to ensure all work activities had proper risk assessments, control measures, and authorization prior to execution. Additionally, I supported the development and review of Job Safety Analysis (JSA) by identifying potential hazards, evaluating risk levels, and recommending appropriate mitigation measures to prevent incidents. My responsibilities also included participation in field safety observations and inspections, including the Traffic Safety Enforcement Program (TSEP), where I monitored vehicle conditions, driver behavior, and compliance with safety procedures. Through close coordination with HSE teams, contractors, and operational personnel, I contributed to strengthening safety awareness, improving compliance, and supporting safe, efficient, and sustainable operations across project sites.

Skilled in HSE compliance, PTW, JSA, contractor safety management (CCPM), field safety inspections, and safety reporting. Experienced in safety data analysis using Power BI and Excel. Certified AK3U, Cisco Networking Essentials, and MTCNA.
