## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Provided comprehensive support to complex operational risk assessments by identifying hazards, evaluating risks, and ensuring the implementation of effective control measures in line with company and regulatory requirements. Delivered structured HSE training programs to company employees, contractors, and supervisors to enhance safety awareness, competency, and compliance across all work activities. Acted as a subject matter expert by providing ongoing advice and technical guidance on risk reduction strategies, proactive safety measures, and safe systems of work. Contributed to strong HSE KPI performance through continuous monitoring, reporting, and follow-up of safety indicators, ensuring alignment with corporate objectives. Led and participated in incident and near-miss investigations, applying root cause analysis techniques to identify underlying issues and develop corrective and preventive actions. Proposed continuous improvement initiatives and practical recommendations aimed at enhancing operational safety, reducing incidents, and strengthening the safety culture. Performed regular site inspections and audits to verify compliance with HSE policies, procedures, and legal requirements. Acted as Lead Auditor for internal audits, coordinating audit activities, documenting findings, and ensuring timely closure of non-conformities. Maintained close collaboration with operations and management teams to support safe execution of activities and continuous HSE performance improvement.
