Additional Information

Roles and Responsibilities	Additional Skills/Certification

I have about 12 years experience in oil and gas industry within safety rules environment in different positions and different departments as well In a different places, I have great ability to work in any position that I have mentioned in my CV and for sure if you do hire me I can provide the best service to you and also I have great experience in the drilling industry department. My last position it's mechanical technician with ALSHAHAB Drilling company in Basra with Kuwait energy client I was responsible for the generators to check daily and inspect them before starting them oil changing in every 500h,as per our schedule and I'm responsible for the maintenance for the rest of the equipment like top driver mud pumps BOP system and basically I'm responsible and I should be ready for any troubleshooting in the site. And regarding the production operator I had also a lot of responsibility in the site taking the readings of the equipment like HP separator and test separator and heater treater and the storage tasks a lot more I hope that I can take an opportunity and to have a chance to talk about everything that in the details.

Iosh, confirmed space enters , work at hight, Many more certifications I have and please review my CV you will see them .
