

**Falcon Multi Services Ltd**  
201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

## Personal Information

<b>Candidate id</b>	5443
<b>Name</b>	Trifko Ratkovi?
<b>Date of Birth</b>	1986-03-05
<b>Salary (in USD)</b>	7000/Per Month
<b>Industry</b>	Drilling / Rig
<b>Sub Industry</b>	Rig Electrician
<b>Nationality</b>	Serbia
<b>Primary Language</b>	English,
<b>Secondary Language</b>	
<b>Total Years of Experience</b>	14

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Drilling Engineer Design well trajectories (vertical, directional, • Select drilling equipment, BHA, drill bits, and MWD/LWD tools • Monitor drilling operations and well parameters • Ensure well control and compliance with safety standards • Perform risk assessments (HAZID, HAZOP) and contingency planning • Analyze pore pressure and fracture gradient (FIT/LOT) • Optimize drilling performance and minimize non-productive time (NPT) • Manage drilling costs, schedules, and AFE budgets • Coordinate with rig crews, geologists, mud engineers, service companies, and RTOC teams • Prepare daily reports and end-of-well documentation

Drilling Supervisor Drilling Supervisor on National-3 Rig 1500 HP Drilling Unit. Worked on 2500 m - 4200 m wildcat and directional exploration HTHP wells where I was exposed to mud-loss control and management, kick control, as well as stuck-pipe resolution techniques and over ten fishing operation. My main on-site responsibilities include:

- Implementing drilling operations and ensuring that they are completed as per schedule
- Planning, organizing and coordinating oil rig operations
- Organize the operations of the staff like engineers, workers, contractors and geologists
- Make regular reports to the drilling superintendent on the progress of operations
- Implementing safety measures and regularly monitoring them for irregularities
- Implementing steps for reducing environmental depletion due to drilling operations
- Monitor all the drilling operations and make decisions regarding continuation or abandonment of the oil rig in extreme climates
- Systematic documentation of the oil rig operations
- Daily Drilling Report creation and management
- Participation in creating well projects and programs.
- Implementing job optimization systems at the Company.
- Creating new forms of DDR, EOWR, Job Tickets, DVD Curve, Cash Flow, KPI, offset well Specialist for RTOC Drilling Pre-Well Planning phase- Prepare Hydraulics, Torque & Drag Plots (road maps) and compare Planned vs Actual data to identify deviation.
- Drilling Operation support - Proactive monitoring and QC of ML, LWD, DD, Wireline, Completion data.
- Compile, analyse and deliver information in timely manner for decision making.
- Consolidate Bit, BHA details and track performance.
- Monitor and track Real time ECD vs planned, hole cleaning trends.
- Prepare Daily report and Distribution
- Track and measure various KPI designed by stakeholders, routinely share this information
- Near real time analysis for rig performance, NPT, ILT tracking and reporting.
- Post Well Analysis- includes statistical analysis of rig performance, NPT, ILT tracking and reporting.
- Maintain Tripping speed Analysis, Bit records.
- Completion of all required training per given timelines
- Responsible to handle and support 3 major sections of operations - Pre-Well Planning, Drilling Operation support & Post Well Reporting for 3-6 wells simultaneously

Drilling Well Control Programme Surface BOP Stack Level 4, Apave Mare LTD (RS.1494)-Completion 23.Mart 2024, Expiration 23. Mart 2026 certificate number: DL4S-00162524-SA-C0AQ (Zrenjanin - Serbia)

## Education Summary

Course	University	Passing Year	Country
Master of Science	University of Belgrade	2014	Serbia

# Career Summary

Position	Employer	Country	From	To
Drilling Supervisor/Specialist for RTOC Drilling	NIS a.d. Serbia, Novi Sad	Serbia	01/2012	01/2025
