## Personal Information

<b>Candidate id</b>	5492
<b>Name</b>	Azlan Bin Mohamed Adnan
<b>Date of Birth</b>	1985-03-04
<b>Salary (in USD)</b>	9500/Per Month
<b>Industry</b>	Drilling / Rig
<b>Sub Industry</b>	Rig Electrician
<b>Nationality</b>	Malaysia
<b>Primary Language</b>	English,
<b>Secondary Language</b>	
<b>Total Years of Experience</b>	17

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

As a Senior Drilling Supervisor with 17 years of comprehensive experience, my primary responsibility is to ensure the safe, efficient, and cost-effective execution of drilling operations. I provide direct onsite leadership and supervision to the drilling crew and contractor personnel, enforcing the highest standards of safety, operational integrity, and environmental compliance. My core expertise encompasses the planning and execution of complex wells, including Deepwater, High-Pressure High-Temperature (HPHT), Managed Pressure Drilling (MPD), and Extended Reach Drilling (ERD) projects. I have a proven track record of managing these technically challenging operations from spud to completion, ensuring all objectives are met within design parameters. I possess extensive hands-on experience across all major rig types: Jack-up, Tender Assist, Semi-submersible, Drillship, and Land Rigs. This versatility allows me to adapt supervision strategies and operational plans to the specific dynamics and limitations of each platform. A key aspect of my role involves real-time monitoring of well parameters, making critical decisions to mitigate risks, and managing unexpected downhole challenges to maintain operational continuity. My responsibilities also include:

- Rigorous compliance with company policies, HSE management systems, and local regulatory requirements.
- Direct supervision of daily drilling, completion, well testing, and well intervention activities.
- Effective management of logistics, materials, and third-party service providers to ensure seamless support for operations.
- Mentoring and training of junior rig staff and assistant drillers to develop team competency.
- Precise reporting on daily operations, costs, and performance metrics to the onshore drilling engineering and management teams.

I hold a valid IWCF Level 4 (Supervisor) certification and apply its principles daily to uphold well control proficiency across the crew. I am immediately available to bring this extensive operational and supervisory expertise to a new challenging role.

- Valid IWCF Level 4 Surface/Subsea certification (valid until November 2026).
- Valid T-FOET with CA -EBS cert

## Education Summary

Course	University	Passing Year	Country
Mechanical Engineering	Universiti Teknologi Petronas	2008	Malaysia

## Career Summary

Position	Employer	Country	From	To
Drilling Supervisor	Petronas	Malaysia	08/2008	07/2011
Drilling Supervisor (Onshore)	Petronas Iraq	Iraq	08/2011	03/2017
Rig Move Engineer (Marine)	Petronas	Malaysia	04/2017	12/2018
Drilling Supervisor Deepwater Drillship	Petronas	Malaysia	01/2019	08/2019
Drilling Supervisor	Repsol Malaysia	Malaysia	08/2019	04/2020
Drilling Supervisor	Mubadala Petroleum	Malaysia	04/2020	07/2021

Position	Employer	Country	From	To
Drilling Supervisor	CarigaliHess Operating Company	Malaysia	08/2021	05/2025
