<b>Nationality</b>	Egypt
<b>Primary Language</b>	Arabic,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	1

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

I am writing to express my enthusiastic interest in beginning my professional journey with your esteemed organization. As a recent Petroleum Engineering graduate from the Faculty of Petroleum and Mining Engineering at Suez University, I have developed a strong academic foundation and gained practical experience through internships with leading companies in the oil and gas sector. During my internship with Khalda Petroleum Company, I actively participated in drilling operations, casing running, and cementing operations, and gained hands-on experience in well control as part of the EDC Rig 57 team. Additionally, my time with Agiba Petroleum Company allowed me to contribute to cement plug operations, sidetrack drilling using whipstock, and directional drilling activities. These experiences have equipped me with essential technical skills and a solid understanding of field operations. I have also strengthened my expertise through specialized software and tools, including MBAL, LANDMARK, MATLAB, and Python, and hold certifications such as IWCF Level 1. My academic record reflects my dedication, as I graduated with an Excellent grade and honors (86.10%), and completed my graduation project on the Balayim Marine Field with a grade of 90%. I am eager to bring my technical knowledge, passion for the energy industry, and commitment to excellence to your team. Thank you for considering my application. I look forward to the opportunity to contribute to your organization's success and grow as a professional under your guidance.
