## Personal Information

Candidate id	5539
Name	Bassam Adel Ahmed
Date of Birth	1997-06-03
Salary (in USD)	4000/Per Month
Industry	Drilling / Rig
Sub Industry	Drilling Manager
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	5

## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

As a Drilling Supervisor, I ensure that all drilling, completion, and well intervention activities are executed in full compliance with the approved drilling program, company standards, API regulations, and local authority requirements. I supervise day-to-day rig operations and confirm that all activities, including drilling, tripping, casing running, cementing, BOP testing, and well control operations, are carried out safely, efficiently, and according to approved procedures. Any deviation from the approved program is technically reviewed, risk-assessed, and approved through the proper management of change (MOC) process. I continuously monitor real-time operational parameters such as weight on bit, rotary speed, torque, standpipe pressure, pump rates, mud properties, and equivalent circulating density to maintain well integrity and optimize drilling performance. I ensure effective well control by verifying BOP readiness, kick detection practices, and crew competency in well control procedures. Abnormal conditions such as kicks, losses, stuck pipe, wellbore instability, or equipment failures are immediately addressed using approved contingency plans. I strictly enforce Health, Safety, and Environment (HSE) requirements by conducting toolbox talks, job safety analyses, and permit-to-work reviews. I ensure full compliance with PPE usage, isolation procedures, and lockout/tagout systems. I maintain accurate daily drilling reports, operational logs, and cost control records. I coordinate closely with drilling engineers, service companies, and rig crews while maintaining clear communication and respecting the chain of command. I safeguard company assets, ensure confidentiality of technical data, and promote a strong safety culture to deliver safe, efficient, and compliant drilling operations.

- Drilling Operations Expertise
- Well Control & Integrity
- HSE Leadership – Enforcing safety rules and procedures
- Supervision & Leadership – Managing rig crews and contractors
- Decision-Making – Taking correct action under pressure

## Education Summary

Course	University	Passing Year	Country
Masters	Cairo university	2025	Egypt
Bachelor	Cairo university	2020	Egypt

## Career Summary

Position	Employer	Country	From	To
Drilling supervisor	Gulf of Suez Company	Egypt	12/2021	12/2025
Drilling engineer	Gulf of Suez Company	Egypt	12/2020	12/2021
