Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Responsible for the planning, execution, and supervision of drilling operations, including drill hole design, borehole allocation, and detailed geo-logging activities. Conducted DGPS surveys and regular site visits to ensure accurate spatial data collection, validation, and reporting. Managed drill rigs, monitored equipment performance, and coordinated maintenance activities to ensure uninterrupted operations. Oversaw daily site activities, logistics, and resource allocation while ensuring effective coordination between field teams, contractors, and clients. Handled site supervision, client communication, and administrative responsibilities to support smooth project execution. Ensured full compliance with safety regulations, environmental standards, and quality control procedures across all operations. Monitored project costs, productivity, and operational efficiency, implementing corrective actions where necessary to optimize performance and meet project timelines and objectives.	Gained hands-on training at MCL, OMC, SAIL, and MECL, developing skills in drilling, geological fieldwork, mine practices, safety, surveys, and reporting. Also trained at IIT (ISM), Dhanbad in modern Oil & Gas drilling technologies.
