With over 16 years of expertise in Drilling, Completion, and Workover operations, I have had the opportunity to work with industry-leading companies, including Saudi Aramco and Agiba-ENI. My experience spans a wide range of onshore and offshore wells, encompassing exploration and development projects in both oil and gas. I specialize in the operation of shallow and deep HTHP, vertical, deviated, and horizontal wells, with a strong focus on maintaining HSE standards and ensuring the safe and efficient completion of drilling programs. Additionally, I have extensive experience managing subcontractor and service company operations, working within budget constraints, and closely monitoring operational costs to enhance efficiency and reduce downtime.

- Job Specific Accountabilities:

- ? Proposing and Executing Amendments: Modifying approved programs based on changing operational parameters.
- ? Ensuring HSE Compliance: Ensuring all rig site and camp operations align with relevant contract provisions and HSE policies, rules, and regulations.
- ? Managing Supply Activities: Overseeing supply activities of materials and equipment to ensure economic and efficient utilization.
- ? Preparing Drilling/Workover Reporting: Preparing daily drilling/workover morning reports, summarizing rig activities and associated costs from the previous 24 hours.
- ? Supervising Operational Program Execution: Supervising the implementation of operational programs covering drilling, workover, well completion, and related activities performed by contractors and service companies.
- ? Monitoring Service Company Personnel: Monitoring and controlling the activities of service company personnel, including operations related to wireline logging, fishing, tubing, completions, acidizing, cementing, directional drilling, production testing, sampling, and coring.
- ? Managing Supply Supervision: Managing supply activities concerning materials and equipment on the assigned rig.
- ? Participating in Rig Mobilization & Demonstration: Participating in rig mobilization, ensuring safe site preparation, rig moves, and well site operations, including the safe plugging of wells and in

IWCF & Wellsharp
