Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

1. Safety Leadership: Serve as a key figure in promoting and ensuring a safe working environment for all personnel on offshore platforms and vessels. 2. Compliance Oversight: Ensure adherence to local and international HSE regulations, standards, and company policies. 3. Risk Management: Identify, assess, and manage hazards and risks associated with offshore operations. 4. Incident Investigation: Lead investigations into accidents, incidents, and near misses to determine root causes and implement corrective actions. 5. Training and Awareness: Develop and conduct HSE training programs for offshore personnel to enhance safety culture. 6. Emergency Preparedness: Oversee emergency response plans, drills, and readiness for potential offshore emergencies. 7. Environmental Protection: Monitor and implement procedures to minimize environmental impact, including waste management and spill prevention. Responsibilities: 1. Conduct Safety Audits: Perform regular inspections and audits of offshore facilities to identify unsafe conditions and ensure compliance with HSE standards. 2. Monitor Work Activities: Supervise high-risk operations like lifting, drilling, and confined space entry to ensure safety protocols are followed. 3. Incident Reporting: Maintain accurate records of incidents, observations, and HSE performance metrics.
