MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

| | |
|---------------------------|----------------|
| Candidate id | 5632 |
| Name | Bariki lotfi |
| Date of Birth | 1988-08-18 |
| Salary (in USD) | 400/Per Day |
| Industry | Drilling / Rig |
| Sub Industry | |
| Nationality | Algeria |
| Primary Language | Arabic, |
| Secondary Language | English, |
| Total Years of Experience | 11 |

Additional Information

| | |
|----------------------------|---------------------------------|
| Roles and Responsibilities | Additional Skills/Certification |
|----------------------------|---------------------------------|

My primary and multifaceted responsibilities center on the safe, efficient, and precise execution of all drilling operations. This begins with the continuous, real-time monitoring of all critical drilling parameters—including weight on bit, rotary speed, torque, rate of penetration, and pump pressure—to form a comprehensive picture of downhole performance. Based on this constant data analysis, I apply and dynamically optimize both drilling and hydraulic parameters. This involves adjusting mud properties, flow rates, and drilling practices to maximize rate of penetration, improve hole cleaning, and ensure wellbore stability, thereby directly enhancing operational efficiency and mitigating potential downhole problems. A crucial aspect of my role involves making precise, data-driven technical decisions that impact both performance and cost. A key example is determining the optimal time to trip out and change the drill bit. This judgment is based on analyzing trends in penetration rate, torque variations, and vibration data, alongside a careful assessment of the bit's dull condition, to prevent either premature trips or unexpected failures. Furthermore, I oversee the complete cycle of operational documentation. I supervise the accurate and timely preparation of detailed daily drilling reports, which serve as the official record of operations, and compile comprehensive final well reports that capture all lessons learned and well data. My duty extends to being the on-site guardian of the drilling program. I ensure full compliance with every procedural and technical specification, authorizing any required deviations only through strict management of change processes. Fundamentally, every action is governed by an unwavering commitment to the highest standards of safety and efficiency. I enforce all Health, Safety, and Environmental (HSE) policies, promote a proactive safety culture, and strive for operational excellence through meticulous planning, coordination, and relentless focus on preventing non-productive time, thereby ensuring the delivery of a technically sound and economically drilled well.

Drilling with different Mud Types. Strong knowledge in safety&identify high risk situation. Ensure that completion work over operations are carried out safely. Drilling vertical and horizontal wells. Ensure that completion work over

Education Summary

| Course | University | Passing Year | Country |
|-----------|----------------------|--------------|---------|
| Hydraulic | Hama lakhdar eloued | 2022 | Algeria |
| Drilling | Kassdi merbah ourgla | 2011 | Algeria |

Career Summary

| Position | Employer | Country | From | To |
|-------------|-----------|---------|---------|---------|
| Company man | Sonatrach | Algeria | 12/2014 | 12/2025 |
