

**Falcon Multi Services Ltd**  
201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

## Personal Information

Candidate id	5646
Name	Ramez Samir Fahim
Date of Birth	1998-02-18
Salary (in USD)	5000/Per Month
Industry	Drilling / Rig
Sub Industry	Rig Electrician
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	5

## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

As a drilling engineer; •Designed and executed well programs for sidetracks and new wells. •Conducted offset well analysis, providing recommendations for drilling fluids, weight, and additives based on new technologies. •Performed cost analysis for well drilling and completion, supporting budgeting and financial planning. •Designed well trajectories for directional drilling using COMPASS software, optimizing well path planning. •Conducted torque, drag, and hydraulics simulations using WellPlan to enhance drilling efficiency. •Developed casing designs using StressCheck software, ensuring structural integrity. •Led technical discussions with geologists, geophysicists, service providers, and vendors to ensure accuracy and compliance. •Monitored daily well operations, provided technical support to field teams, and assisted in procurement for drilling projects. •Ensured compliance with safety, security, and environmental standards while tracking operational expenditures. And as a supervisor: •Led and supervised offshore drilling operations during the night shift, ensuring 24/7 wellsite efficiency. •Managed rig crew, provided technical guidance, and ensured adherence to safety protocols. •Monitored well progress, troubleshooted operational challenges, and minimized downtime. •Coordinated with service providers and vendors for timely material and equipment delivery. •Prepared detailed daily reports on well performance, operations, and safety compliance using Openwells software. •Acted as the primary communication link between offshore teams and onshore engineering staff.
